23 December 1965

Subject: ECP GR-37, Contract LP-2264 Dear Chuck, This change is technically approved by the SPO. Request that you give [formal authority to proceed with it. STATINTL The following comments on this change are for the information of all concerned: It is our understanding that only the Lens Assemblies will be returned to _____ for retrofit, not the entire STATINTL magazine. We feel that prototype units should be retrofitted before production units. The PSO, Test Force, SAC, and should jointly STATINTL establish a schedule for return of Azimuth Lens Assemblies to the SRA to make this change. b. We believe a mod symbol is appropriate for the RCD in this case since magazines should generally stay with the same serial numbered RCD. c. This is the first Goodyear ECP involving retrofit at their SRA. You probably will want _____ to affirm that there STATINTL will be no additional cost to any of our contracts since this is a contractor responsible change. STATINTL STATINTL Copy:
